

GRAND ROUNDS

Save the date for a community celebration

In 1994, a satellite program of the Ottawa Regional Cancer Centre was established at Renfrew Victoria Hospital to provide seamless, coordinated cancer care in our community.

“Having access to specialized care close to home has made all the difference to the patients and their families who are affected by cancer. It removes the stress of travelling to the city at a time that is already challenging,” says Chris Ferguson, RVH VP of Patient Services.

On Monday October 14, 2019, RVH patients and family, staff, physicians and volunteers are invited to join us to mark the 25th anniversary of cancer care close to home. The celebration will begin with tours at the hospital provided by Ferguson from 3 to 4 p.m.

“We are inviting the community to celebrate this milestone with us. Following the tour, it will be an evening of entertainment, good food, and a community celebration,” says Patricia Dillabough, RVH Foundation Executive Director.

The celebration will include an “Amigos style” smorgasbord dinner served from 4:30 p.m. to 7:30 p.m. at the RCAF Wing.

Let's celebrate 25 Years of Oncology at Renfrew Victoria Hospital
