

GRAND ROUNDS

The Celebration Continues

On behalf of the all those who benefit from your support the Renfrew Victoria Hospital and the Foundation extends their thanks!

The 14th Celebration of Life Day was another success and a testament to Janet Robertson's passion for contributing to healthcare in her community and to her family and supporters for keeping her legacy going.

Janet's daughters took time to visit the Digital Mammography suite on Celebration of Life Day in a room named in her honour.

"Patients are quick to comment on the comfort of furniture and warm atmosphere of the waiting room—this would not have

been possible with the support RVH receives from this event," says Barb Desilets, RVHF Executive Director.

The girls confirmed funds raised amounted to \$23,000.00 that will go to RVH Oncology/Mammography, Hospice Renfrew and a portion to Physician Recruitment.

This year an added gift was directed by Janet's Aunt Nellie. Nellie Acres was a local farmer and former patient of RVH who enjoyed the Healing Garden space and she has offered her support to that initiative, leaving an estate gift of \$10,000.00.

The RVH Healing Garden is a 3 Phase project with Phase I opening in 2015 and Phase II in 2017.

Janet Robertson's daughters, April, Alyssa and Amber, carry on the Celebration of Life tradition.

Our thanks to Celebration of Life partners:
