

8 STEPS TO A SAFER HOSPITAL VISIT

- 1 Speak up...** ask questions about your care
- 2 Tell us** about your health history
- 3 Know your medications** and allergies
- 4 Wash your hands** and remind others
- 5 Ask for help** with activity
- 6 Ensure we check** your identification
- 7 Ask questions about your medications** at discharge and know what to do after discharge
- 8 Take your hospital information** to your family doctor after discharge

Let's work TOGETHER for safety!
